

**Here are the current COVID-19 procedures for all RIBs visitors of all types. These procedures may change at any time in response to new information. Please read carefully, as they will be enforced:**

---

**Individuals exhibiting symptoms of illness are required to stay away from the shop space.**

- What are symptoms of illness?

Any of the following: persistent runny nose, watery red eyes, sore throat, difficulty breathing, profuse sweating, inability to focus, repeated coughing, sneezing, or hacking.

---

**Only clean hands or gloves are allowed to touch the shop and its artifacts.**

- What hands or gloves are defined as unclean?

Any hands or gloves that have touched any part of your own or someone else's body, including garments or possessions, at any point.

- How does one get clean hands or gloves?

Wash your hands for at least 20 seconds with soap, dry them, and then don't touch your body, the body of anyone else, or the garments or possessions of yourself or anyone else with any of your hands.

You may then freely touch all the things in the shop that \*are not\* people, garments, or personal possessions. Additionally, once hands are clean, gloves are available for extra protection.

**If you touch another person, yourself, your or another person's garments, or your or another person's possessions with any of your hands or gloves while in the shop, your hands or gloves are no longer clean. If you want to stay in the shop and continue work, you must then wash your hands again (or gloves) for at least 20 seconds with soap, and dry them.**

**If any of your gloves are torn and cannot be washed without filling with water, remove both gloves, wash your hands as outlined above, and put on a new pair of gloves.**

**These procedures are to prevent Very Bad Things from happening to yourself or someone else.**

---

Thanks for observing this and being careful in the RIBs space.

Take care of yourselves.
