

Through Rigorous and Thorough Testing

Has been proven an Absolutely Competent Bicyclist.

CORVALLIS BICYCLE COLLECTIVE

Be Safe, Visible, and Predictable

Festoon yourself with bright colors and flashing lights, especially at night or on dark days.

Hold Your Line safely out from obstacles.

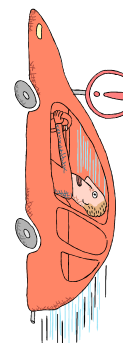

Always ride on the right side of the street, never on the sidewalk nor against traffic.

Pass parked cars with enough room for a sudden door opening.

Never duck in and out between parked cars.

Stay the same distance from the center of the road.

See the driver's eyes before you ride in front of the vehicle. Use your voice to get attention. A brisk "Hello!" could save your life.

Signal by pointing where you intend to go.

Maintain your bicycle with regular visits to the CBC.
